MELTING EFFECT

CelluformTM+

MELTING EFFECT

***A precious solution with specific active ingredients
to treat the neck area.***

Celluform Plus is a solution of natural ingredients able to break up the adipose cells improving the structure of the skin.

The adipose tissue is reabsorbed rapidly in only a few days.

Celluform Plus furtherly causes a loss of fatty tissue and also stimulates a greater production of collagen resulting in firmer and younger skin.

**The final result is a total remodeling of the area
with an evident lifting effect.**
